To Whom It May Concern:

Let it be known that Internationally Delicious, Inc./ Masterpiece Cookies and Gluten Free and Fabulous has met the requirements for CSA's Recognition Seal Program, the first program in the United States to recognize companies that meet the strictest criteria of "No WBRO (wheat, barley, rye, or oats) in Product, Processing and Packaging."

The CSA Recognition Seal Program is designed exclusively for premiere producers in the country. The Seal indicates those products appropriate for a medically prescribed celiac diet. This company has provided CSA with a copy of their specific procedures and policies necessary to produce a product free of WBRO. CSA periodically conducts on-site inspection and engages the University of Nebraska for product testing by ELISA Method, sensitive to 3ppm (parts per million) to assure continuity in the No WBRO quality. The Most recent ELISA testing was completed on September 29, 2006 and an audit of the facility in Hayward California was completed on November 2, 2006.

CSA commends Gluten Free and Fabulous for all the efforts that have been made to provide a product free of WBRO for the nearly three million Americans who are celiac.

The CSA Recognition Seal is the visual assurance at the market place to consumers who follow a diet free of WBRO and now Gluten Free and Fabulous customers can choose them with confidence.
