

Masterpiece Cookies Allergen Statement:

While all our cookies do not contain the same ingredients, ***they are manufactured in the same facility.*** In our facility, we process tree nuts, (walnuts, pecans, macadamia nuts & almonds), peanuts, soy, wheat, milk, and eggs on shared equipment. While we do our best to clean and sterilize before and after each use, ***we are not an allergy-free facility.***

We follow all good manufacturing guidelines, including those in our HAACP program, to limit any cross-contamination by cleaning the equipment between each run thoroughly, and producing allergen containing products as the last run of each production.

If you have any further questions, please contact us at 800-536-6155
